Description

Matt's main style and passion is funky, chunky and soulful house but he can be heard regularly spinning all forms of house from soulful laid back grooves to full on tough funky house throwing in breaks and tribal beats on regular occasions! I also mix up RnB, Funk, Hip Hop and House when booked to do so.

He has played at the best clubs in London and still hold a residency @ Cafe De Paris, London. His goals now are to produce my own tunes and to direct myself back into discerning house clubs and nights both in the UK and abroad. He is also aiming to get another radio show, and previously had a 2 year slot on www.londonliveanddirect.com internet radio.
